Requested follow-up

The fictional case for Maryam Al Balushi (M003) is missing one mandatory service certificate. This file records the request for that evidence. It does not contain a service certificate.

Please obtain the service certificate from the authorized source and arrange independent review. Do not infer completed or verified service from this request.

Suggested extraction: memberId = M003; documentType = missing evidence request; missingDocument = service certificate; missingCount = 1. This request does not clear the readiness finding.

CHECKPOINT: uploading a request does not satisfy the missing certificate.
