

DEMONSTRATION ONLY - NOT VALID EVIDENCE

Service overlap review

A reported month count without invented service periods

MEMBER M009 | Aisha Al Maamari

REFERENCE DEMO-SVC-M009-001 | DEMO DATE 2026-09-25

Overlapping service	3 months
Underlying date periods	Not supplied by the fixture
Required evidence	Period-level service records
Source action	No automatic deletion or correction
Review status	Open evidence question

What the evidence establishes

For fictional member Aisha Al Maamari (M009), the demonstration REST source reports three overlapping service months. This sample repeats that count without constructing dates or employers that were not supplied.

Obtain the underlying service periods and supporting records. Determine whether the overlap is a duplicate, an allowed arrangement or another condition under the approved business procedure.

Suggested extraction: memberId = M009; overlappingMonths = 3. The rule finding supports review. It must not delete service or reduce an entitlement automatically.

CHECKPOINT: three months are flagged; the underlying periods remain unknown.
